

## The Three Zeros

Zero fatalities  
Zero pollution  
Zero detentions

FONASBA is a keen supporter of this initiative.

## The Three Zeros

FONASBA's commitment at Singapore was

*"to survey members, collaborate with INTERTANKO and others to draw up a database of slop reception facilities at ports/terminals."*

## The Three Zeros

### FONASBA's Four P's

- Provision of advance information
- Preliminary port planning
- Pre-emptive preventative action
- Prompt positive reaction

## Professional Agent

- Provide advance information

ensures the owner/operator is fully aware of the regulations, requirements and facilities applicable to the port.

- Preliminary port planning

ensures that the vessel notifies its requirements in good time to avoid any last minute, rush jobs.

## Professional Agent

A close working relationship between a professional agent and a committed owner, developing mutually supportive cooperation and trust over a period of time, is a major factor in enabling the tanker industry to achieve

**INTERTANKO's Three Zero's**

## Reception Facilities

We have gained the impression that

There is a lack of focus

Oil companies, terminal operators see slop reception facilities as an inconvenient cost.

Awareness needs to be raised with respect to, for example: obligations under MARPOL

Example of a typical charter party clause

Discharge of dirty ballast, bilges, slops or other substances into waters adjacent to the terminal is prohibited. Discharge of dirty ballast to shore facilities shall be permitted at the Terminal operators sole discretion and shall be subject to the Terminal Operator's regulations and guidelines.

FONASBA

*Poseidon Challenge*

Paraphrasing the Chairman's introduction

It is FONASBA's intention that the publication will be subject to:

Continuous improvement, it is

No flash in the pan and will be

Sustained over years

FONASBA

*Poseidon Challenge*

Port Reception Facilities.
